

WHAT'S IN IT FOR YOU

This training provides individuals working in a healthcare or community setting with the knowledge and skills to become a Community Health Worker (CHW). A CHW can serve as a link between medical and social services and the community, as well as support access to those services. CHWs can be engaged in various activities including outreach, community education, informal counseling, social support and advocacy.

WHAT'S IN IT FOR EMPLOYERS

Montana Office of Rural Health/AHEC (MORH) received grant funding through the Health Resources and Services Administration (HRSA) to make these and other training programs broadly available to increase the number of paraprofessionals trained in community and behavioral health across our state.

Additional information on this and other training opportunities can be found at:
www.healthinfo.montana.edu/workforce-development/index.html

Apprenticeship Option: Community Health Worker Apprenticeships which include on-the-job training with a mentor and incremental wage increases are available in conjunction with this training. Apprenticeship is the only way to receive a Nationally Recognized Credential for this occupation. Call 406-444-4100 or email apprenticeship@mt.gov.
